(h) Date of application.

(2) Applications for refund or renewal shall be received and promptly dealt with in the English office of the Collector, under the supervision of the Office Superintendent.

(3) The application shall be entered in the register in form P. E. D.-7. The clerk concerned shall examine the application in order to see that—

(a) the application is in the proper form,

(b) the stamps are genuine,

(c) if the value of the stamps tendered for refund or renewal is Rs. 100 or above the actual purchase of the stamps is verified from the register of the person authorised to sell stamps.

If the clerk concerned finds that the application is incomplete or the stamps, for which a refund is claimed or which are required to be renewed, are not enclosed with it, it shall be returned promptly to the applicant after obtaining the orders of the Collector through the Office Superintendent with the objection recorded on it.

If the clerk concerned finds that the application is in order and the papers are complete, he shall, after carefully examining the grounds of the application, record a note whether he considers the claim to be admissible, and, if so, he shall submit the case along with the register in form P. E. D.-7 after completing columns 1 to 11. He shall also prepare and submit with the case a $\frac{\text{refund}}{\text{renewal}}$ statement in form $\frac{\text{P. E. D.-8 or 9}}{\text{P. E. (4) The Office Superintendent shall carefully check the application and the relevant papers submitted to him and satisfy himself that the various checks prescribed for examining the application and instructions for filling up the register and the $\frac{\text{refund}}{\text{renewal}}$ statement referred to in sub-rule (3) above, have been duly observed. He shall also see that the rules and orders in this behalf contained in other relevant Manuals, Codes or Acts and other orders issued from time to time are strictly complied with.

He shall then record his opinion as to the admissibility of the claim, and if he finds the claim to be in order, he will sign the $\frac{\text{refund}}{\text{renewal}}$ statement and fill up columns 12 to 15 of the register, and then submit the case with relevant papers to the Collector.

(5) The Collector shall satisfy himself that the claim is admissible. He may require the applicant to make an oral deposition on oath or solemn affirmation or to file an affidavit setting forth the circumstances in which the claim has arisen and may also, if he deems fit, call for evidence in support of such deposition or affidavit.

If he is satisfied that the claim is in order in all respects, he shall check the register and the $\frac{\text{refund}}{\text{renewal}}$ statement with the relevant stamps and see that the amount of $\frac{\text{refund}}{\text{fresh stamps}}$ to be $\frac{\text{granted}}{\text{issued}}$ is correctly entered both in register and the $\frac{\text{refund}}{\text{renewal}}$ statement in such a way that no gap is left to enable the amount to be altered.

He shall then have the stamps burnt in his presence and record the following certificate on the file :—

" Stamps of the value of Rs. ________ (both in words and figures burnt in my presence.)

Collector,

Dated ______________ . ______________ District, "

If the stamps received are in good condition and fit for re-issue, they shall not be burnt, but sent to the Treasury Officer with a memo. in duplicate in form P. E. D.-11.

The Collector shall then sign the $\frac{\text{refund}}{\text{renewal}}$ statement and fill up columns 16 and 17 of the register, and return the case to the Superintendent.

(6) The Superintendent shall then arrange to hand over in his presence the refund or renewal statement to the applicant or his or her agent taking his or her acknowledgment in column 18 of the register. He shall then set his initials in column 19 in token of his having done so.

When the amount of the refund does not exceed Rs. 100, the money may be remitted to the applicant by postal money order at his or her expense in accordance with the rules contained in the note to article 198 (c) of the Civil Account Code, Volume I.

(7) If the Collector decides that the $\frac{\text{refund}}{\text{renewal}}$ is not admissible, he shall record his reasons for refusal and return the papers to the Office Superintendent. The latter shall return the application, with stamps to the applicant in the manner laid down in sub-rule (6) above.

If the Collector calls for further evidence in support of the application, a memo. shall be issued to the applicant giving full particulars of the documents required to be furnished.

(8) After an order has been passed by the Collector sanctioning the claim, or calling for further evidence in support of the application, if the $\frac{\text{refund}}{\text{renewal}}$ statement is not taken or further evidence required is not furnished by the applicant within one year (or 3 years in case the claim exceeds Rs. 5 in value) of the date of such order, the application with stamps and $\frac{\text{refund}}{\text{renewal}}$ statement shall be destroyed under the orders and in the presence of the Collector, and the fact noted in column 21 of the register in form P. Note 2.—Sterling overseas pay shall be excluded from calculation for the purpose of determining the rate of pay.

3-A. For the purpose of railway travel in Great Britain and Northern Ireland (excluding Irish Free State) the Classification of officers will be determined as follows :—

1st grade.—Officers in receipt of pay exceeding Rs. 1,100.

2nd grade.—Officers in receipt of pay exceeding Rs. 349 but not exceeding Rs. 1,100.

3rd grade.—Officers in receipt of pay not exceeding Rs. 349.

Note 1.—For the purpose of determining the grade of an officer, the term 'pay' means the pay which the officer would draw if he were on duty in India.

Note 2.—Sterling overseas pay shall be excluded from calculation for the purpose of determining the rate of pay.

4. The Local Government may for special reasons declare an officer to be included in a different grade from that in which he falls under rule 3, for the purposes of any or all of these rules, or fix special rates of allowance for him individually.

Note.—The consent of the Finance Department is not presumed to a declaration under this rule.

SECTION II.—COMPENSATORY ALLOWANCE.

5. Subject to the provisions of Rules 6 and 7 officers who are *sent to England from India* on deputation may be granted a compensatory allowance at the following rates from date of landing in England to date of leaving that country for India :—1st grade 16*s.* 8*d.* a day ; 2nd grade 12*s.* 6*d.* a day ; 3rd grade 8*s.* 4*d.* a day. Officers deputed from India to places abroad will draw halting allowance under Section IV (B) for the duration of their deputation in America or Europe as the case may be.

Compensatory allowance is intended to compensate for disturbance. It should not without special sanction be granted, or continued in cases in which it is clear that "disturbance" has not occurred, or has ceased, *e.g.*, if the officer is enjoying Government hospitality or is known to have no intention of returning to India. It should not be continued beyond 12 months without the special sanction of the High Commissioner for India.

6. If an officer is permitted to take leave during his deputation, or to delay his embarkation for India at the conclusion of his deputation by taking leave, payment of compensatory allowance will cease during the period of leave.

7. An officer who is eligible for a compensatory allowance under this Section may be granted halting allowance under Section IV in lieu thereof, if to his advantage, in respect of necessary absences on duty away from headquarters.

8. Officers placed on deputation while on leave in England may be granted a compensatory allowance at the rates prescribed in Rule 5 if they can show that they are put to extra expense in the matter of accommodation through being placed on duty. They will draw halting allowance in lieu thereof in respect of necessary journeys on duty away from headquarters.

9. With reference to rule 8, if an officer's residence is at a distance from his headquarters, and he is committed to its occupation, the High Commissioner for India may, at his discretion, sanction the cost of railway travelling (at season ticket rates, if possible) between such residence and headquarters, provided that this course will not cost more to Government than the grant of compensatory allowance under rule 8, and that it will not interfere with the officer's duty.

SECTION III.—TRAVELLING EXPENSES.

10. Travelling expenses when admissible are granted as follows where actually incurred :—

First Grade.—First class railway or steamer fare.

Second Grade.—Second if available, otherwise third.

Third Grade.—Third class.

NOTE.—Officers are expected to follow the most economical route and to take advantage of return, cheap day, tourist, week-end or excursion tickets when available, and when a saving may be effected thereby. When it is known that daily journeys between the same two places will be performed on several occasions, a season ticket should be taken if more economical than daily return tickets. Railway officers travelling at concession rates may claim the cost of concession tickets only.

Delegates to conferences, etc., should utilise any rail and steamer fare concessions offered by conference authorities.

Officer travelling by private motor-cars, etc., may be granted mileage allowance at the rates and under the conditions prescribed by the Treasury.

11. In the case of cross-Channel passages second grade officers may travel 1st class and third grade officers 2nd.

12. Only the cost of return tickets is allowed when such can be taken.

13. (*i*) An officer unless otherwise instructed is expected to take up his headquarters at his place of work, and will not be refunded the cost of journeys (other than the first and last) between his home or place of residence and his headquarters.

(*ii*) In case of doubt the High Commissioner for India will decide what is an officer's headquarters.

14. Except as provided in Rule 15, necessary incidental expenses, such as taxi or cab fares, motor hire, etc., may be passed by the Accountant-General, India Office or the Chief Accounting Officer to the High Commissioner, at their discretion. The extra cost of sleeping berths or seats in Pullman cars will not be allowed elsewhere than in America without the sanction of the High Commissioner for India.

15. Officers entitled to second class passages who are deputed to the United Kingdom receive in respect of journey from port of embarkation to their homes and *vice versa* the following allowance in lieu of refund of incidental expenses under Rule 14, namely, 15*s*. for each journey if the officer travels alone and £1 for each journey if he is accompanied by his wife or family.

16. An officer ordered to travel by the overland route to or from India on duty may be granted, in addition to travelling expenses, an inclusive sum of £ 1 as travelling allowance for the journey between England and the continental port of embarkation for, or disembarkation from, India.

SECTION IV.—HALTING ALLOWANCE.

17. Officers on deputation from India travelling on duty may, when away from headquarters, draw in addition to travelling expenses under Section III halting allowance at the rates shown in the following tables A and B. These rates are not intended to meet the whole cost of subsistence when absent from home or headquarters, but only the extra expenses necessarily incurred through such absences :—

3. This notification supersedes Punjab Government, Industries and Labour Department (Electricity) notification No. $\frac{838\text{-El.-36}}{17107}$, dated the 19th May, 1936, so far as the form of contract is concerned :—

FORM OF CONTRACT.

Agreement made this ______ day of ______ one thousand nine hundred and ______ Between The ______ (hereinafter referred to as the licensee) of the one part, and ______ (hereinafter referred to as the consumer) of the other part, Whereby it is agreed as follows :—

1. The licensee shall furnish to the consumer and the consumer shall accept at the premises mentioned in the schedule annexed hereto on and from the date on which the said premises shall be connected with the licensees distributing main, a constant supply of electrical energy for the purpose and upto the maximum specified, and under the conditions laid down in the said schedule ; but the licensee will not be responsible for any interruption or diminution of the supply due to occurrences beyond the control of the licensee.

2. The consumer shall pay to the licensee, on demand, the cost of so much of any service line as may be laid down or placed for the purpose of the supply upon the said premises, and of so much of any service line as it may be necessary for the said purpose, to lay down or placed beyond 100 feet from the licensee's distributing main, although not on the said premises.

3. The supply shall be registered by a meter or meters in or upon the said premises to be provided, fixed and kept in proper order by the licensee. The consumer shall pay to the licensee for each meter on hire, the monthly rent, as laid down from time to time in the licensee's Current Official Scale of Rates. The consumer shall be at liberty at any time to purchase such meter or meters from the licensee, and from and after purchase thereof, the consumer shall be responsible for keeping the same in proper order. A similar monthly charge, as for meters, will be made for special instruments supplied on hire for the purposes of sub-section (7) of section 26 of the Indian Electricity Act, 1910.

4. The consumer shall pay the licensee for all electrical energy so supplied at the rates, and in accordance with the terms given in the licensee's Current Official Scale of Rates and the signing of this agreement is held to imply concurrence in the terms of the said scale of Rates.

5. A consumer under this agreement is required to state (see Schedule) under which of the rates, set out in the licensee's Official Book of Rates, he desires to be charged.

6. Readings of the meter or meters will be taken by the licensee once in each month, or at such other intervals or times as he shall think expedient, and the licensee's meter readers shall have access to the consumer's premises at all reasonable times for the purpose of taking such readings. The readings of each meter shall be entered by the licensee on a card to be attached to such meter and to be open for the inspection of the consumer. Payment for energy supplied shall be made by the consumer according to the readings of each meter.

7 If the consumer, at any time considers that any meter (not being his own property) is not correctly registering the value of the supply, the licensee will, on receipt of a notice in that behalf from the consumer, take the necessary steps to have the same tested, at the option of the consumer, either by the licensee or by the Electric Inspector to Government. If upon such test it shall be found that the meter registers the supply "correct", as provided in rule 29-A of the Indian Electricity Rules, 1922, or any statutory modification thereof, the consumer shall pay to the licensee, on demand all costs of and incidental to such testing. If upon such test it shall be found that the meter registers "fast" in excess of the amount permissible under rule 29-A of the Indian Electricity Rules, 1922, or any statutory modification thereof, all costs of and incidental to such testing shall be borne by the licensee, who shall also refund to the consumer any amount paid by him in respect of the quantity registered in excess during the previous three months computed on the basis of the error or difference from absolute accuracy disclosed by such test. If upon such test it shall be found that the meter registers "slow" in excess of the amount permissible under rule 29-A of the Indian Electricity Rules, 1922, or any statutory modification thereof, all costs of and incidental to such testing shall be borne by the licensee, but the consumer shall pay to the licensee, on demand, for the quantity short registered by such meter during the previous three months, computed on the basis of error or difference from absolute accuracy disclosed by such test. For so long as the meter (being the property of the licensee) shall not be "correct" the consumer shall not be liable for the hire thereof.

8. The consumer shall, on being thereunto required by the licensee, deposit with him the sum of Rs.   as security for the purpose next hereinafter mentioned and shall, on the like requisition from time to time, renew or replenish such security in the event of the same becoming exhausted or insufficient. The licensee shall be at liberty, at any time, and from time to time to appropriate and apply any security, so deposited as aforesaid, in or towards payment or satisfaction of all or any moneys which shall become due or owing by the consumer to the licensee in respect of the supply of energy or otherwise, under this Agreement, but the provisions in this clause contained shall not prejudice any other remedy to which the licensee may be entitled for the recovery of such moneys. The licensee when so required by the consumer, shall pay to the consumer interest at the rate of —

Three per cent. on deposits of Rs. 10 to Rs. 49, and

Three and-a-half per cent. on deposits of Rs. 50 and over,

for every complete period of 12 calendar months during which the same shall remain on deposit with the licensee, and the said premises shall be connected with the licensee's distributing main.

9. The consumer shall not be at liberty, save with the consent of the licensee, to determine this Agreement before the expiration of two years from the date of the commencement of the supply of electrical energy hereunder. The consumer may determine this Agreement at any time, after the said period, on giving to the licensee not less than one calendar month's notice, in writing, in that behalf and upon the expiration of the period of such notice, this Agreement shall cease and determine without prejudice to any right which may then have accrued to the licensee hereunder :—

Provided always that the consumer may, at any time, with the previous consent of the licensee, transfer this agreement to any other person and, upon subscription by such transferee of these presents, this Agreement shall become binding on the transferee and the licensee, and take effect in all respects as if the transferee had originally been a party hereto in place of the consumer, who shall thenceforth be discharged from all future liability under or in respect hereof.

10. This Agreement shall be read and construed as subject in all respects to the provisions of the*_______ Electric Licence*_______ and to the provisions of the Indian Electricity Act, 1910, and of any modifications or re-enactments thereof for the time being in force and the rules for the time being in force thereunder, so far as the same respectively may be applicable. The supply of the electrical energy under this agreement is subject to the following among other provisions of law, namely :—

*Here insert the short title and the year of the grant of the licence.

(i) The licensee shall be entitled to discontinue such supply :—

(a) if the owner or occupier of the property to which the supply is made has not already given security, or if any security given by him has

become invalid or insufficient, and such owner or occupier fails to furnish security or to make up the original security to a sufficient amount, as the case may be, within seven days after the service upon him of notice from the licensee requiring him so to do, or

(b) if the owner or occupier of the property to which the supply is made adopts any appliance, or uses the energy supplied to him by the licensee for any purposes, or deals with it in any manner so as unduly or improperly to interfere with the efficient supply of energy to any other person by the licensee, or

(c) if the electric wires, fittings, works and apparatus in such property are not in good order and condition, and are consequently likely to affect injuriously the use of energy by the licensee, or by other persons, or

(d) if the owner or occupier makes any alterations, or additions to, any electric wires, fittings, works or apparatus within such property as aforesaid, and does not notify the same to the licensee, before the same are connected to the source of supply with a view to their being examined and tested but the licensee shall reconnect the supply with all reasonable speed on the cessation of the act, or default, or both, as the case may be, which entitled him to discontinue it.

(ii) Where the owner or occupier has required the licensee to supply him at a specified maximum rate, he shall not be entitled to alter that maximum except after one month's notice, in writing, to the licensee, and the licensee may recover from the owner or occupier any expenses incurred by him by reason of such alteration in respect of the service lines by which energy is supplied to the property beyond one hundred feet from the licensee's distributing main, or in respect of any fittings or apparatus of the licensee upon that property.

(iii) Where any difference or dispute arises as to the amount of energy to be taken or guaranteed, or as to the cost of any service line, or as to the sufficiency of the security offered by any owner or occupier, or as to the improper use of energy, or as to any alleged defects in any wires, fittings, works or apparatus, or as to the amount of the expense incurred under sub-paragraph (ii) above, the matter shall be referred to the Electric Inspector to Government, Punjab, and decided by him.

(iv) The licensee shall not connect the conductors and fittings on a consumer's premises with his works unless he is reasonably satisfied that the connection will not, at the time of making the connection, cause a leakage from those conductors and fittings exceeding one five-thousandth part of the maximum supply demanded on the consumer's premises.

(v) Where the licensee declines to make a connection, in accordance with sub-paragraph (iv) above he shall serve upon the consumer a notice stating his reason for so declining.

(vi) If at any time the licensee has reason to believe that a leakage, likely injuriously to affect the use of energy by the licensee or by other persons exists in the premises of the consumer then the licensee may give the consumer reasonable notice, in writing, that he desires to inspect and test such wires and fittings belonging to the consumer as form part of the circuit.

(vii) If the consumer does not give all reasonable facilities for inspection and testing, or if a leakage from the consumer's conductors exceeding one five-thousandth part of the maximum supply demanded on the premises is discovered, the licensee may forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and need not recommence the supply until the cause of the leakage has been removed.

(viii) where a consumer is dissatisfied with the action of the licensee under sub-paragraphs (iv) to (vii) above, in refusing or discontinuing, or in not recommencing, the supply of energy to his premises, the conductors and fittings of such consumer shall, on his application, and on the payment of prescribed fee, be tested for the existence of leakage by an Electric Inspector or other officer appointed to assist the Electric Inspector. Any such test shall be carried out within 48 hours of the application to make the same or on the payment of the prescribed fee, whichever is later.

(*ix*) If the Electric Inspector or other officer as aforesaid on testing finds that the leakage from the consumer's conductors is less than one five-thousandth part of the maximum supply demanded on the premises, the Electric Inspector shall notify the licensee, and the licensee shall, within 24 hours, commence or continue the supply of energy : provided that in this case the licensee shall refund the amount of the prescribed fee to the consumer.

The 25th February, 1937.

No. 294-Elec.-37/7541.—The following conditions to regulate the relations of the Gujránwála Electric Supply Company, Limited, with persons who are or intend to become its consumers within the area of supply prescribed in the Gujránwála Electric Licence, 1925, or as it may be amended hereafter, have been sanctioned by the Punjab Government in accordance with the provisions of section 21 (2) of the Indian Electricity Act, 1910, and are hereby published for general information :—

PART I.

Conditions of Supply.

Note.—Wherever the expressions " Licensee ", ' Consumer ", " Wiring Contractor ", " Service connection ", " Bazar area ", " Restricted and Unristricted Hour Supply " are used in these Conditions of supply they will be interpreted as follows :—

" Licensee " means the Gujránwála Electric Supply Company, Limited.

" Consumer " means any person who is supplied with energy by the licensee, or whose premises are for the time being connected for the purposes of a supply of energy with the works of licensee, or who under paragraph 15 of these " Conditions of Supply " is responsible to the licensee for payment of all charges.

" Wiring Contractor " means the wiring contractor employed by the occupier or landlord of any premises to instal wiring within those premises for the purpose of taking an electric supply from the licensee's works.

" Service Connection " means the final connection of the consumer's installation to the licensee's service-line which means any electric supply line through which energy is, or is intended to be, supplied by the licensee—

(i) to a single consumer either from a distributing main or immediately from the licensee's premises, or

(ii) from a distributing main to a group of consumers on the same premises or an adjoining premises supplied from the same point on the distributing main.

" Bazar Area " shall be interpreted as meaning all property in streets within Municipal boundary limits which are described in the Municipal record as bazars and shall include all such side streets in that area, whose road-width does not permit standard distribution construction owing to the street fairway being too narrow.

" Restricted Hour Supply " shall be held to mean a supply—

(a) (From 1st October to 31st March) from 12 midnight to 18.0 hours,

(b) (From 1st April to 30th September) from 12 midnight to 19-0 hours,

or

such other daily hours as may be agreed upon between the licensee and the consumer before the commencement of supply.

" Unrestricted Hour Supply " shall mean a supply which can be utilised by the consumer in accordance with his stated requirements day or night at any hour.

1. Application for a supply of electrical energy must be made to the licensee upon the form of requisition, copies of which are obtainable at licensee's Head office. The requisition must be signed by the owner or occupier of the premises. Any assistance or information required in filling up the form will be given at the licensee's Head office.

Application for supply.

2. Upon receipt of the application notice will be sent to the consumer or to the wiring contractor acting on the consumer's behalf, for his representative to meet the licensee's engineer to agree upon the position of the supply service, main cut-out and meters. The licensee will in no case fix his meters and main cut-outs, nor will he allow the same to remain, in any position which entails entry by his employees into purdah or religious quarters.

Notice for fixing service meter, etc.

3. The intending consumer must give one month's notice before the supply is required. (The licensee will make every endeavour to give a supply of energy to new consumers with the minimum delay.)

Minimum notice required by licensee.

4. The licensee will lay service lines between the distributing main and the consumer's premises. The size of these lines and of the meter boards and fuses will be determined by the licensee's engineer.

Fixing position of service meter boards and fuses.

Consumer not to interfere with supply mains or apparatus.

5. The licensee provides his own meter boards, main cut-outs, etc., and it must be clearly understood that these remain his property and must on no account be handled or removed by any one who is not in the employ of the licensee. The seals which are fixed on the meters and the licensee's apparatus must on no account be broken. Breaking the licensee's seals renders a consumer liable to a fine which may extend to Rs. 50.

Fixing services and apparatus on consumer's premises.

6. Fixing of service lines, cables and fittings connected therewith not including house wiring, etc., on consumer's premises shall be undertaken by the licensee at the scale of charges given in part III of these conditions of supply.

Wiring on consumer's premises.

7. For the protection of consumers and the public generally, the wiring on consumer's premises shall conform with the Indian Electricity Rules, 1922, and the rules of the Fire Insurance Company in which the building is insured.

The licensee will not accept responsibility for the maintenance or testing of wiring on consumer's premises. The adoption of the Regulations for the Electrical Equipment of Buildings of the Institution of Electrical Engineers or the specification issued by the local Government for work in Government buildings in the Province, is strongly recommended, especially with reference to the method of carrying out metalsheathed wiring.

Position and construction of main switches and fuses.

8. Every electric supply line (other than the earthed neutral conductor of any system or the earthed external conductor of a concentric cable) shall be protected by the person to whom the same belongs, by a suitable cut-out,—*vide* Rule 44, Indian Electricity Rules, 1922).

Procedure for testing installation and fee.

9. (*i*) After completion of the wiring 48 hours' clear notice must be sent to the licensee (upon the printed test form obtainable from his head office) that the installation has been completed and tested by the contractor and that the same is complete and ready for inspection and test by the licensee, by whom only can the connection be made. Notice of the licensee's intention to inspect and test the installation will be sent to the contractor, who must send a representative at the time and date fixed by the licensee to give any information that may be necessary concerning the installation, or note any defect which may require alteration.

(*ii*) No connection will be made until the prospective consumer's installation has been inspected by the licensee's engineer and found satisfactory by him. In all cases where the installation fails to be passed for connecting to the licensee's works, the licensee's engineer will inform the wiring contractor or his representative (who will be present at the time of all such tests) or the consumer (in case the wiring contractor is not present at the appointed time) of the reasons for not connecting the installation. No charge will be made by the licensee for the first test, but subsequent tests will be charged for in accordance with part III, item 8.

(*iii*) All fittings, whether incandescent lamps, arc lamps, fans, motors, heating or cooking apparatus, must be connected to the conductors, and all fuses must be in place and all switches on, before the tests are carried out.

(*iv*) A pressure of 500 volts will be applied between the whole installation and "earth", and the insulation resistance, after one minute's electrification, shall not be less than the total number of ohms arrived at by dividing the number 10,000,000 in the dry season and 5,000,000 in the rainy season, by the number expressing the maximum electric current in amperes required.

(*v*) A test between the poles should give at least half the result of that t "earth".

Extensions and alterations.

10. Should the consumer, at any time after the supply of energy has been commenced, increase the number, or size, of lights, fans, motors, etc., on his premises, or in any way alter the position of his wiring therein, notice (in writing) must be sent to the licensee, whose representative will call and inspect the alteration and, if necessary, change the meters and fuses and alter the service line. Failure to give such notice may derange the supply system and render the supply liable to be summarily cut off. During such times as alterations, additions, or repairs are being executed the supply to the circuit which is being altered, added to, or repaired, should be entirely disconnected and it should remain disconnected until the alterations, additions, or repairs, have been tested and passed by the licensee.

11. Should the licensee's main fuse melt, notice must be sent to the sub-station of the licensee (telephone No. 234). It may only be replaced by one of the licensee's authorised assistants. No repairs will be done to the consumer's internal installations wiring by the licensee's men except on the distinct application of a consumer.

Failure of supply.

12. The licensee's duly authorised servants may, at any reasonable time, on informing the occupier of such intention, enter any premises to which energy is or has been supplied by the licensee to carry out essential works as defined in section 20 of the Indian Electricity Act, 1910. For the protection of consumers the licensee's duly authorized servants will always be provided with an official authority from the Company signed by the Chief Engineer and Secretary, which the consumer is entitled to view.

Access to apparatus.

13. The licensee may require any consumer to enter into an agreement in the form given in the appendix to these conditions and to deposit security. In case of no formal contract having been entered into between the licensee and the consumer, the latter, after once the supply of electricity has commenced, shall be bound by the terms and conditions of supply herein set forth.

Agreement and security.

14. The price and method of charging for current supplied shall be such as may from time to time be fixed by the licensee in accordance with the provisions of the Act and of his licence, or such as may be made the subject of special agreement between the consumer and the licensee (see part II).

Method of charging for current.

15. Consumers about to vacate or sublet their premises should give the licensee a full seven days' notice in writing, together with an opportunity for disconnecting the premises, otherwise the licensee cannot guarantee that the meter readings will be taken on the required date. Failing such notice the consumer will be held responsible for the price of energy consumed and for any other charges, in respect of the premises in regard to which the licensee holds his agreement for the supply of energy, until such date as notice of vacation, in writing, has been received at the licensee's Head office.

Notice of removal.

16. The nature of the supply will be alternating current of 50 cycles frequency which will be distributed as detailed below.

Nature and details of supply.

Supply for domestic purposes will be made at the consumer's terminals at the declared pressure of 230 volts from licensee's distributing mains. In particular cases, where large supplies are required special conditions will be imposed as under:

(1) Upto 5 K. W. at 230 volts, single-phase.

(2) Above 5 and up to 10 K. W. at 230 volts, 2-phase.

(3) Above 10 and up to 20 K. W. at 230 or 400 volts, 3-phase.

(5) The licensee shall have the option of supplying energy at 55 volts, single-phase, or 95 volts, 3-phase, in certain congested areas in bazars and the city. Alternating current motors of more than 2 B. H. P. will only be supplied across 3-phases.

17. In order that the supply to other consumers shall not be interfered with 3-phase motors should in every case be provided with suitable overload protection and should preferably be arranged to start light on a loose pulley and the following points should be observed:—

Three phase supply.

(a) Upto 6 horse power motors may be of the squirrel cage-type but the starting device shall be designed to keep the starting current within the limits of twice the full load current. Motors above six brake horse power should be provided with wound rotors and slip rings with the starting device designed to keep the starting current within the limit of 1½ times the full load current.

(b) Where wiring for 3-phase motors is in conduit, all phase wires shall be bunched in a single metallic conduit which must be efficiently earthed throughout and connected to the frame of the motor. It is recommended that the earthing wire shall not be smaller than the equivalent of No. 8 S. W. G. copper. In no case will single leads run separately in metal conduits or an earth connection to a gas main be allowed.

18. Nothing in these conditions shall abridge or prejudice the rights of the licensee under his licence and under the Acts of the Government of India or of the Local Government, or any rule thereunder.

AGREEMENT.

AGREEMENT made this ____________ day of ____________ one thousand nine hundred and ____________ between the Gujranwala Electric Supply Company, Limited (hereinafter referred to as the licensee) of the one part, and ____________ (hereinafter referred to as the consumer) of the other part, whereby it is agreed as follows :—

1. The licensee shall furnish to the consumer and the consumer shall accept at the premises mentioned in the schedule annexed hereto on and from the date on which the said premises shall be connected with the licensee's distributing main, a constant supply of electrical energy for the purposes and upto the maximum specified, and under the conditions laid down in the said schedule ; but the licensee will not be responsible for any interruption or diminution of the supply due to occurrences beyond the control of the licensee.

2. The consumer shall pay to the licensee, on demand, the cost of so much of any service line as may be laid down or placed for the purpose of the supply upon the said premises, and of so much of any service line as it may be necessary for the said purpose to lay down or place beyond 100 feet from the licensee's distributing main, although not on the said premises.

3. The supply shall be registered by a meter or meters in or upon the said premises to be provided, fixed and kept in proper order by the licensee. The consumer shall pay to the licensee for each meter on hire, the monthly rent, as laid down from time to time in the licensee's Current Official Scale of Rates. The consumer shall be at liberty at any time to purchase such meter or meters from the licensee, and from and after purchase thereof, the consumer shall be responsible for keeping the same in proper order. A similar monthly charge, as for meters, will be made for special instruments supplied on hire for the purposes of sub-section (7) of section 26 of the Indian Electricity Act, 1910.

4. The consumer shall pay the licensee for all electrical energy so supplied at the rates, and in accordance with the terms given in the licensee's Current Official Scale of Rates, and the signing of this agreement is held to imply concurrence in the terms of the said Scale of Rates.

5. A consumer under this agreement is required to state (see Schedule) under which of the rates, set out in the licensee's Official Book of Rates, he desires to be charged.

6. Readings of the meter or meters will be taken by the licensee once in each month, or at such other intervals or times as he shall think expedient, and the licensee's meter readers shall have access to the consumer's premises at all reasonable time for the purpose of taking such readings. The readings of each meter shall be entered by the licensee on a card to be attached to such meter and to be open for the inspection of the consumer. Payment for energy supplied shall be made by the consumer according to the readings of each meter.

7. If the consumer, at any time, considers that any meter (not being his own property) is not correctly registering the value of the supply, the licensee will, on receipt of a notice in that behalf from the consumer, take the necessary steps to have the same tested, at the option of the consumer, either by the licensee or by the Electric Inspector to Government. If upon such test it shall be found that the meter registers the supply "correct", as provided in rules 29-A of the Indian Electricity Rules, 1922, or any statutory modification thereof, the consumer shall pay to the licensee, on demand all costs of and incidental to such testing. If upon such test it shall be found that the meter registers "fast" in excess of the amount permissible under rule 29-A of the Indian Electricity Rules, 1922, or any statutory modification thereof, all costs of and incidental to such testing shall be borne by the licensee, who shall also refund to the consumer any amount paid by him in respect of the quantity registered in excess during the previous three months computed on the basis of the error or difference from absolute accuracy disclosed by such test. If upon such test it shall be found that the meter registers "slow" in excess of the amount permissible under rule 29-A of the Indian Electricity Rules, 1922, or any statutory modification thereof, all costs of an incidental to such testing shall be borne by the licensee, but the consumer shall pay to the licensee, on demand, for the quantity short registered by such meter during the previous three months, computed on the basis of error or difference from absolute accuracy disclosed by such test. For so long as the meter (being the property of the licensee) shall not be "correct" the consumer shall not be liable for the hire thereof.

8. The consumer shall, on being thereunto required by the licensee, deposit with him the sum of Rs. __________ as security for the purpose next hereinafter mentioned and shall, on the like requisition from time to time, renew or replenish such security in the event of the same becoming exhausted or insufficient. The licensee shall be at liberty, at any time, and from time to time to appropriate and apply any security, so deposited as aforesaid, in or towards payment or satisfaction of all or any moneys which shall become due or owing by the consumer to the licensee in respect of the supply of energy or otherwise, under this Agreement, but the provisions in this clause contained shall not prejudice any other remedy to which the licensee may be entitled for the recovery of such moneys. The licensee when so required by the consumer, shall pay to the consumer interest at the rate of three per cent. on deposits of Rs. 10 to Rs. 49, and three and-a-half per cent. on deposits of Rs. 50 and over, for every complete period of 12 calendar months during which the same shall remain on deposit with the licensee, and the said premises shall be connected with the licensee's distributing main.

9. The consumer shall not be at liberty, save with the consent of the licensee, to determine this Agreement before the expiration of two years from the date of the commencement of the supply of electrical energy hereunder. The consumer may determine this Agreement at any time, after the said period, on giving to the licensee not less than one calendar month's notice, in writing, in that behalf and upon the expiration of the period of such notice, this Agreement shall cease and determine without prejudice to any right which may then have accrued to the licensee hereunder :—

Provided always that the consumer may, at any time, with the previous consent of the licensee, transfer this Agreement to any other person and, upon subscription by such transferee of these presents, this Agreement shall become binding on the transferee and the licensee, and take effect in all respects as if the transferee had originally been a party hereto in place of the consumer, who shall thenceforth be discharged from all future liability under or in respect hereof.

10. This Agreement shall be read and construed as subject in all respects to the provisions of the Gujanwala Electric Licence, 1925, and to the provisions of the Indian Electricity Act, 1910, and of any modifications or re-enactments thereof for the tim being in force and the rules for the time being in force thereunder, so far as the same

respectively may be applicable. The supply of the electrical energy under this agreement is subject to the following among other provisions of law, namely :—

(*i*) The licensee shall be entitled to discontinue such supply :—

(*a*) if the owner or occupier of the property to which the supply is made has not already given security, or if any security given by him has become invalid or insufficient and such owner or occupier fails to furnish security or to make up the original security to a sufficient amount, as the case may be, within seven days after the service upon him of notice from the licensee requiring him so to do, or

(*b*) if the owner or occupier of the property to which the supply is made adopts any appliance, or uses the energy supplied to him by the licensee for any purposes, or deals with it in any manner so as unduly or improperly to interfere with the efficient supply of energy to any other person by the licensee, or

(*c*) if the electric wires, fittings, works and apparatus in such property are not in good order and condition, and are consequently likely to affect injuriously the use of energy by the licensee, or by other persons, or

(*d*) if the owner or occupier makes any alterations, or additions to, any electric wires, fittings, works or apparatus within such property as aforesaid, and does not notify the same to the licensee, before the same are connected to the source of supply with a view to their being examined and tested but the licensee shall reconnect the supply with all reasonable speed on the cessation of the act, or default, or both, as the case may be, which entitled him to discontinue it.

(*ii*) Where the owner or occupier has required the licensee to supply him at a specified maximum rate, he shall not be entitled to alter that maximum, except after one month's notice, in writing, to the licensee, and the licensee may recover from the owner or occupier any expenses incurred by him by reason of such alteration in respect of the service lines by which energy is supplied to the property beyond one hundred feet from the licensee's distributing main, or in respect of any fittings or apparatus of the licensee upon that property.

(*iii*) Where any difference or dispute arises as to the amount of energy to be taken or guaranteed, or as to the cost of any service line, or as to the sufficiency of the security offered by any owner or occupier, or as to the improper use of energy, or as to any alleged defects in any wires, fittings, works or apparatus, or as to the amount of the expense incurred under sub-paragraph (*ii*) above, the matter shall be referred to the Electric Inspector to Government, Punjab, and decided by him.

(*iv*) The licensee shall not connect the conductors and fittings on a consumer's premises with his works unless he is reasonably satisfied that the connection will not, at the time of making the connection, cause a leakage from those conductors and fittings exceeding one five-thousandth part of the maximum supply demanded on the consumer's premises.

(*v*) Where the licensee declines to make a connection, in accordance with sub-paragraph (*iv*) above, he shall serve upon the consumer a notice stating his reason for so declining.

(*vi*) If at any time the licensee has reason to believe that a leakage, likely injuriously to affect the use of energy by the licensee or by other persons exists in the premises of the consumer than the licensee may give the consumer reasonable notice, in writing, that he desires to inspect and test such wires and fittings belonging to the consumer as form part of the circuit.

(*vii*) If the consumer does not give all reasonable facilities for inspection and testing, or if a leakage from the consumer's conductors exceeding one five-thousandth part of the maximum supply demanded on the premises is discovered, the licensee may forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and need not recommence the supply until the cause of the leakage has been removed.

Proceedings of the Punjab Government (Ministry of Agriculture) in the Public Works Department, Buildings and Roads Branch, No. 657-G., dated 15th March, 1937.

READ—

THE Administration Report of the Public Works Department, Buildings and Roads Branch, for the year 1935-36.

Expenditure.—The total expenditure on works for the year under report was practically the same as that of the previous year, *viz.*, Rs. 86 lakhs in round figures, while there was a slight increase in the percentage expenditure on establishment from 14·53 to 14·73 per cent. The total expenditure in the department for the year was Rs. 1,06,52,162 against Rs. 1,05,58,413 for the preceding year.

Communications.—The policy of surfacing all metalled, provincial roads was continued vigorously throughout the year and the work is now on the verge of completion, while the steady reduction in maintenance costs has continued as the result of this policy. The balance of 322 untarred miles in the previous year, or 11·7 per cent. of the whole, was reduced to 136·4 miles or 4·8 per cent. of the whole, while the average cost of maintenance of Rs. 1,449 per mile in the previous year fell to Rs. 1,341 for the year under review, the total expenditure falling from Rs. 39,93,898 to Rs. 37,85,568, or a drop of 5·2 per cent., which is gratifying and is a further indication that the anticipation referred to in the previous report of a drop to Rs. 1,100 per mile in the near future is likely to be realised in spite of the steady increase in traffic, as will be seen from the figures of the registration of Motor Vehicles which for the year under review reached 16,559 against 14,765 for the previous year.

In reviewing the figures for the last 10 years it is interesting to note that the metalled mileage has increased from 1,626 miles in 1925-26 to 2,823 miles which is an increase of 73 per cent., while corresponding maintenance cost has increased by 37 per cent. only. The actual increase in metalled mileage during the year under review was 66 miles.

The mileage of unmetalled roads has decreased from 1901 in the previous year to 1833 as the result of corresponding increase in metalled mileage. Along most of these roads a motorable scheduled or service road is being maintained. The manitenance cost of the roads under this category amounted to Rs. 3,48,209, or Rs. 190 per mile as against Rs. 183 in the previous year.

After deducting the receipts from the Central Road Fund amounting to Rs. 8 lakhs and the yield obtained from motor taxation, which contributed during the year Rs. 7,09,555, the net amount borne by the Province in respect to roads comes to Rs. 33,16,661.

During the year the Grand Trunk Road at Jhelum which previously led through the narrow and congested main bazar was diverted to the other side of the Railway Station. This has proved a great boon not only to through traffic but to traffic to and from Cantonments.

The Grand Trunk Road between the Shalamar Gardens and the Railway underbridge at Lahore, where the traffic is very intense, was increased in width from 20′ to 30′.

With the exception of two miles which were nearing completion, the close of the year saw the completion of the metalling and the opening to traffic of the Lyallpur-Sargodha Road.

A start was made on the metalling of the road between Malaut and Abohar and it was hoped to complete the work in 1936-37, but considerable delay was caused over land acquisition proceedings, 5 miles only being metalled out of a total of 19.

The close of the year marked the linking up of Multan with the outer world by means of a metalled road from Multan to Jehanian joining up with the metalled road from the latter place through the Nili Bar from Montgomery to Lahore. The soling coat was not actually completed by the end of the year in one or two miles but light motor traffic was allowed to proceed over the well laid brick soling coat.

Satisfactory progress was made with the metalling of the remaining unmetalled portion of the Sohna-Rewari Road between Taoru and Rewari and it was expected to complete this work by the following December.

Great improvements were made in the farther reaches of the Simla-Tibet Road. A dangerous route through the Hopshang Khud was abandoned and replaced by a safe diversion cut in the cliffs through the precipice, thus removing the continuity of danger to traders and their pack animals.

The Government of India have accepted the future cost of maintenance for the portion beyond the border between the Hopshang Khud and Shipki, the first village in Tibet.

As the result of the deliberations of the Transport Advisory Council which was formed by the Government of India and on which the Punjab Government were represented, it was decided to revise the programme of future road development schemes apart from those to which Government was committed, with a view to giving facilities in areas where railways were not available rather than providing a dual system where the railways were already going far to meet the existing needs. Steps were, therefore, taken to draw up a road programme on this basis and a special post of Superintending Engineer (Roads) was created in October, 1935, for the purpose. The post also included that of Secretary, Communications Board, hitherto held by the Superintending Engineer, Third Circle, in additon to his own duties.

Communications Board.—The Board held one regular meeting and one meeting of the Finance Sub-Committee for distribution of grants to District Boards. The District Boards had appoximately 1,230 miles of metalled and 6,950·6 miles of unmetalled roads in their charge. Funds to the extent of Rs. 3,59,702 were distributed as grants-in-aid. As in the previous years, due to continuance of financial stringency, the Communications Board has not been able fully to meet its obligations of paying the District Boards the accepted percentage on maintenance which comes to Rs. 3,81,603. The following statement for the previous five years, which includes the year under review, shows the grants that have been made :—

Year.	Grant-in-aid earned by District Boards.	Actual grant paid.	Difference between columns 2 and 3.
	Rs.	Rs.	Rs.
1931-32	4,79,673	3,28,000	1,51,673
1932-33	4,22,376	2,77,955	1,44,421
1933-34	4,08,144	2,80,322	1,27,822
1934-35	3,44,101	2,75,854	68,247
1935-36	3,81,603	3,24,435	57,168
Total ..	20,35,897	14,86,566	5,49,331

The grader fund started last year, to encourage the extensive use of grading outfit, was not drawn on during the year on account of financial stringency.

The Board has under consideration a scheme for advancing loans for the purchase of road grading outfits and recovering the same from the maintenance grants in fixed instalments.

During the year 868 miles of unmetalled road were maintained by means of road graders.

The post of a whole-time Secretary, which had been in abeyance, was replaced by the creation of a new combined post of Superintending Engineer, (Roads), and Secretary, Communications Board, from the forenoon of October 9, 1935, when the charge of Secretary, Communications Board was transferred from the control of Superintending Engineer, Third Circle, to the new incumbment of this post. Other changes contingent to the creation of this post were the abolition of the independent sub-division and the transfer of the inspection of roads and audit of accounts to the Executive Engineers in this Branch and Divisional Accountants, respectively.

The total expenditure incurred on ordinary maintenance on Class II roads by District Boards during the year 1934-35 was Rs. 10,84,176 whilst Rs. 56,943 and Rs. 17,821 were spent on development and special repairs, respectively, in the year 1935-36.

This amount indicates an expenditure of Rs. 700 per mile for metalled roads against 600 spent in the previous year. The progress made with tarring is still disappointing. Out of 1,230 miles only 432·48 miles were tarred to the close of the year. In pursuance of the policy to provincialise important non-competitive Class II roads, maintained by the District Boards, so as to leave more funds available for improving village roads, the Buildings and Roads Branch have drawn up a 12 years road programme and included therein certain Class II roads which are to be taken over in their order of urgency, as funds permit.

Buildings.—During the year under review the total expenditure on buildings, including cost of maintenance, was Rs. 24,26,968. General Administration buildings again formed the largest item, followed by those for the Police, Medical, Civil Works and Jails. The expenditure under major heads on buildings (Original Works and Repairs) was :—

Amongst the most important works started during the year under major heads on buildings were the construction of a Tahsil building at Sirsa and structural alterations to Jind House to serve as a building for the Sessions Judges' Courts, Lahore. The work on the foundations and basement of the new Legislative Council Chamber at Charing Cross, Lahore, was nearing completion while the main block of the new Police Station, Ferozepore Road, Lahore, was practically completed and work on the subsidiary buildings was in hand. On the G. O. R. Estate, Lahore, work was started on residential buildings for the Honourable Chief Justice, High Court, the Commissioner, Lahore, and the Senior Superintendent of Police and it was expected to have these buildings ready for occupation early in October, 1936.

A new Mandi town at Pir Mahal in the Lyallpur district was laid out and the grain platforms in the mandi together with gates and compound walls were completed and the construction of the main metalled roads was in hand.

Public Health Circle.—This Circle continued its activities and preliminary and detailed major projects, estimated to cost Rs. 11,01,267 and Rs. 5,55,628, respectively, were prepared. In addition a large number of minor projects and estimates for maintenance and repairs to water supply and sanitary installations, prepared by local bodies, were scrutinized for technical sanction, while a considerable number of such estimates amounting to Rs. 10,09,285 had also to be prepared. Eight new important schemes were commenced and completed during the year. The more important works carried out were :—

(1) *Water supply, sanitary and air conditioning installation for the New Legislative Council Chamber, Lahore.*—This work is estimated

to cost Rs. 96,173 and the tube-well and pumping chamber were started and completed last year and all water for building purposes is being obtained from this well. The septic tank, the rising main and the gravity sewer, which is connected with the Municipal drainage system, were completed. Messrs. Air Conditioning Corporation, Limited, were awarded the contract for the air conditioning installation.

(2) *Arifwala Mandi Water Supply.*—This comprehensive water supply project estimated to cost Rs. 1,07,639 is for the Mandi town of Arifwala. The work was started in 1935 and it was expected to be completed by the end of September, 1936.

(3) *Montgomery Drainage Scheme.*—The total estimated cost of this work is Rs. 5,97,290. Good progress was maintained on part I of the scheme, the estimate for which amounts to Rs. 4,10,000.

(4) *Bhiwani Water Supply Scheme.*—This scheme, estimated to cost Rs. 5,90,267, was put into use in 1933-34 and has since been working satisfactorily. A sand washing machine and chlorinating plant were installed in 1935 out of savings and the work on completion was handed over to the local body.

(5) *Bhiwani Drainage Scheme.*—The estimated cost is Rs. 4,44,403. The extra-mural and intra-mural drainage system, except for one block, was completed and arrangements were being made to undertake the construction of the disposal works.

(6) *Okara Drainage Scheme.*—This work was started in December, 1934. The scheme is estimated to cost Rs. 2,54,167. With the exception of the intra-mural drainage system, which was in progress, the remaining works were nearing completion.

(7) *Okara Water Supply Scheme.*—This work, estimated to cost Rs. 1,47,120, was practically complete and it was expected to finish the remaining items of work early in April.

The demands on this Circle from local bodies for assistance are still growing year by year and credit is due to the Superintending Engineer and his staff for the admirable way in which these growing demands are met. There were 229 installations controlled by the Public Health Circle and the total horse power generated was 1,747. Altogether 26 borings for investigation of water supply and other purposes were carried out during the year and numerous tube-wells were successfully installed to meet local demands and requirements.

Electrical Engineering.—During the year under review a much needed reorganization of the electrical undertakings in the Branch was brought into effect. Previously the duties of the Electric Inspector and the Electrical Engineer to Government were performed by one officer who thus had to serve under two separate Ministries. These two posts have now been separated. Further, owing to the rapid development of electrical undertakings, both private and otherwise, throughout the Province, it was felt that the arrangement whereby the Electrical Engineer was responsible for all electrical works and repairs, no matter how small, in Government buildings throughout the Province, was cumbersome and uneconomical. His activities were, therefore, reduced and mainly confined to Lahore itself while such works of an ordinary nature in the Mofussil were handed over to the ordinary local Public Works Department staff assisted by electrical Mistries.

As the result of the changes referred to above the Renala Hydro Electric power station was handed over to the Electricity Branch of the Public Works Department.

During the year the electrification of Government buildings at Sheikhupura, Gurdaspur and Ludhiana which was taken in hand in 1934-35 was completed and schemes for electrification of Government buildings at Sargodha and Rohtak were started and completed. The capital outlay and ordinary maintenance expenditure incurred by the Electrical Engineer during the year amounted to Rs. 1,55,063 and Rs. 1,31,708 respectively, while the fees earned

or recoverred for works and other miscellaneous receipts amounted to Rs. 1,27,184.

Engineering Education.—The cost of engineering education during the year was Rs. 3,59,764.

(*a*) *The Maclagan Engineering College, Moghalpura.*—There was an inappreciable drop from 248 to 234 in the number of students which entered the College during the year under review. For 30 vacancies for "A" Class only 14 ultimately joined the College. The substitution of scholarships for stipends in 'B' Class still indicates a falling off, only 44 candidates competed for 25 vacancies. The competition for railway nominee vacancies, however, remained keen, 125 candidates competing for 15 vacancies. Twenty-five candidates were selected for Class "C" which was created during the previous year as the result of a generous donation of Rs. 30,000 from Rai Bahadur Lala Amar Nath. This class is intended to train young men who are desirous of taking up careers as artizans and tradesmen.

The results of final examinations for 1935 were very gratifying. In the external examinations, 6 students were successful, 4 in part and 2 in the whole of the Associate Membership examination of the Institution of Electrical Engineers. For the Associate Membership examination of the Institution of Mechanical Engineers, 29 were successful, 27 in part and 2 in the whole, and for the City and Guilds London and University of Cambridge, 9 and 3, respectively, were successful.

Out of 10 "A" Class students who sat for the final examination of the B. Sc. Degree in Engineering of the Punjab University 8 were successful.

Every effort has been made to explore the employment market on behalf of passed successful students and those who complete their course. Out of 35 students who completed their course in September, 1935, 28 are definitely known to be in employment.

The second bay of the College Workshop, which was put in hand in the previous year, was completed and has been equipped with the necessary plant.

The general health of both the students and the staff as a whole has been very satisfactory, the contributing factor being the keen interest taken in games by almost all the students.

(*b*) *Government School of Engineering, Punjab, Rasul.*—The total number of students attending classes at the beginning of the session were 111, of which 109 continued to the end of the session. With the improvement of the financial situation of the Province and the consequent increased employment, competition for entrance to the school is keener, 138 candidates competing for 58 vacancies as compared with 85 in the previous year.

The results of the final examination for Overseers were again satisfactory. Of the 46 students who successfully completed the 2 years' course 24 obatined the 'A' Certificate (11 with "Honours" and 13 with "Credit") and 22 obtained the 'B' certificate. Of the 46 students 44 were Punjab candidates and 2 from Indian States, on whom they are dependent for employment. Of the Punjabi students employment was found for 18 in the Subordinate Engineering Service and Military Engineering Service.

In the 2nd year Draftsman Class there were 4 students, all of whom qualified with ordinary certificates. There was only one student in the 3rd year Draftsman Class and he qualified.

Of the four draftsmen who qualified in the 2nd year, two have been selected for permanent posts in the grade of Rs. 60—2—100 less 15 per cent. One has been employed in a temporary capacity in the Irrigation Branch and one in the Military Engineering Service. The draftsman who qualified in the 3rd year course has also obtained employment as Head Draftsman in the Irrigation Branch.

During the year under review an Artizan Bricklayer Class was started to meet the long-felt need of improvement in the standard of bricklaying and masonry in the Province. The class was started with the admission of 20 students and is proving so popular that over 60 students have already applied for the 20 vacancies in the next course.

Although the running expenses of the school were kept as low as possible the net cost of training has risen to Rs. 850 per student as compared with Rs. 827 in the previous year. This slight increase is due to Indian States not having sent students for training during 1935-36.

Due attention was paid to games and drill discipline, which are invaluable assets in the system of training and help materially not only to promote the health and capacity for endurance but also develop team spirit. Inter-section competitions in games and athletics were introduced and brought about a marked impetus to the students' enthusiasm and prowess.

Land Acquisition Officer.—During the year, 1,147 encroachments were determined after comparison with the revenue records as against 1,321 in the preceding year. This slight falling off is due to the considerable amount of time which was spent in preparing data for the actual instituting of 61 test cases which have since been completed. Six hundred and sixty-six cases were referred to the Deputy Commissioners of various districts for warning the encroachers as against 245 cases in the previous year. Eighty-five of these encroachments were actually removed.

Forest Officer.—The services of a Divisional Forest Officer were lent to the Department for advice on road-side arboriculture, both as regards planting and felling. His services proved extremely valued.

Administration.—Mr. D. Macfarlane, I.S.E., continued as Chief Engineer and Secretary to Government, Punjab, Public Works Department, throughout the year, except for the period from the 5th April, 1935, to the 6th October, 1935, when he was on leave. During this time Mr. S. G. Stubbs, O.B.E., I.S.E., Superintending Engineer, officiated in the post.

Sir Jogendra Singh, the Minister for Agriculture, wishes to record his deep appreciation of the way in which the department has met and carried out a progressive policy. He wishes particularly to express his acknowledgment to Mr. Macfarlane, who has been associated with him from almost the very beginning. It is no small achievement to have increased the metalled mileage from 1,626·5 to 2,824·44 between 1926 and 1936 and to have reduced the cost of maintenance from Rs. 1,703 to Rs. 1,341 with prospects of ultimate reduction to Rs. 1,000 per mile in spite of having surfaced the whole length out of the maintenance grant.

The improvement of earth roads by provision of service roads demands special mention; what is more the engineers are taking pride in their roads; roadside pits are being filled and land lying alongside the road is being levelled. Tree plantation is making good progress and it may be hoped that in a few more years our roads will become attractive, with pathways for pedestrians under the shade of trees and that pits and stunted trees which disfigure the landscape will disappear. In all plantations where canal irrigation is not available irrigation by wells and tube-wells should be provided and the price realised from the sale of old roadside trees should be used for these improvements. The Punjab is only at the beginning of the development of its communications. If Rural Reconstruction is to become real, communications must occupy a high place in the programme.

In 1926 the cost to the Province for development and maintenance of roads was Rs. 45,21,440 (Maintenance Rs. 27,69,581 and Original Works Rs. 17,51,859) and the income from motor taxation Rs. 2,53,677 only. In the year under review the cost for development and maintenance was Rs. 48,26,216 (Maintenance Rs. 37,85,568 and Original Works Rs. 10,40,648), and the income from motor taxation and the Central Road Fund amounted to Rs. 15,09,555. Thus the net cost to the Provincial Revenues of our roads was 10 years ago Rs. 42½ lakhs and to-day, as a direct result of better communications, the cost is only Rs. 33 lakhs. If the Province were given to the full the duty on petrol realised by Government of India, it could meet all its expenditure, and have adequate funds for further development without any demand on Provincial Revenues.

The Communications Board is serving a useful purpose and the departure which the Ministry advocated of making the Executive Engineer in each

Division responsible for inspecting District Board roads is likely to prove of great advantage. It must, however, be noted that the reduction of the maintenance grants to District Boards had led to the deterioration of these roads and if in accordance with the Road Programme these roads are to be reconditioned the present maintenance grant of Rs. 3,10,000 will have to be raised to about Rs. 5,00,000.

Engineering Education has continued to make progress but the cost per student of Rs. 682 at the Maclagan Engineering College and Rs. 850 at the Rasul School of Engineering is rather too high. The number of admissions to the Maclagan Engineering College is small while the number of overseers from Rasul who cannot find employment is over 100. The Ministry holds that these two institutions could be combined in the interest of economy without prejudicing the training of overseers, as an overseer class could be opened at the Maclagan Engineering College, and training in survey could be given at Rasul. The admission to the Maclagan Engineering College could be increased by opening an extended central workshop there with the result that the canal workshops at Amritsar, the Agricultural workshops at Lyallpur and other small workshops could be abolished in the interest of economy and efficiency.

The Ministry hopes that the Buildings and Roads Branch will continue in the future as in the past, its beneficent activities of broadening all utility services, and win for the department the confidence and respect which it richly deserves.

JOGENDRA SINGH,
Minister for Agriculture.

6. (1) The principles laid down in rule 5 will also apply to the case of a person appointed after the 31st December, 1930, to a service or a post, unless previous to the date of this notification he has been made permanent substantive in that service or post under competent authority.

(2) Where a person appointed to a service or post subsequent to the 31st December, 1930, has been made permanent substantive in that service or post under competent authority previous to the date of the notification of these rules, his pay will be regulated as follows :—

(i) If previous to confirmation he was drawing the old time-scale of pay reduced by 15 per cent. in pursuance of the general policy of Government, he will enter the old scale at the stage next below the pay he was actually drawing on the date of this notification and will receive personal pay so as to make his total pay equal to the pay he was actually drawing. He will further be permitted to draw his first increment in the old scale from the date on which it would have normally accrued, having regard to the date of his appointment to the service or post.

(ii) If previous to confirmation he was allowed the old time-scale of pay without any reduction, he will continue to draw pay and earn increments in that scale without any re-adjustment :

Provided that both in sub-clauses (i) and (ii) above if previous to confirmation he was warned that the pay of the post was liable to revision, his pay will be regulated as in rule 5.

7. In all cases personal pay will be absorbed in annual increments.

8. Members of services or holders of posts in regard to which the old rates of pay have been retained but to which the 15 per cent. cut was applied in pursuance of the general

policy of Government, shall be brought on to the old scale of pay with effect from the first day of the month following the date of notification of these rules. Past service will be counted in fixing their pay in the old scale, but retrospective effect will not be allowed for the purpose of drawing arrears of pay.

INSTRUCTIONS PASSED UNDER THE ROYAL SIGN MANUAL AND SIGNET TO THE GOVERNOR OF THE PUNJAB.

Dated 8th March, 1937. GEORGE R.I.

INSTRUCTIONS to Our Governor for the time being of the Punjab.

GIVEN at Our Court at Buckingham Palace the Eighth day of March 1937 in the first year of Our Reign.

WHEREAS by Letters Patent bearing date the Fifth day of March Nineteen hundred and thirty-seven We have made permanent provision for the Office of Governor of the Punjab.

AND WHEREAS, by those Letters Patent and by the Act of Parliament passed on the second day of August, Nineteen hundred and thirty-five and entitled the Government of India Act, 1935 (hereinafter called "the Act", certain powers, functions and authority for the government of the Province of the Punjab are declared to be vested in the Governor as Our Representative :

AND WHEREAS, without prejudice to the provision in the Act that in certain regards therein specified the Governor shall act according to instructions received from time to time from Our Governor-General and to the duty of Our Governor to give effect to instructions so received, We are minded to make general provision regarding the due manner in which Our said Governor shall execute all things which, according to the Act and the said Letters Patent, belong to his Office, and to the trust which We have reposed in him :

AND WHEREAS a draft of these Instructions has been laid before Parliament in accordance with the provisions of sub-section (1) of section fifty-three of the Act and an Address has been presented to Us by both Houses of Parliament praying that instructions may be issued in the terms of these Instructions :

NOW, THEREFORE, We do by these Our Instructions under Our Sign Manual and Signet declare Our pleasure to be as follows :—

A.—INTRODUCTORY.

I. Under these Our Instructions, unless the context otherwise require, the term "Governor" shall include every person for the time being acting as Governor according to the provisions of the Act.

II. Our Governor for the time being shall, with all due solemnity, cause Our Commission under Our Sign Manual appointing him to be read and published in the presence of the Chief Justice for the time being, or, in his absence, other Judge, of the High Court of the Province.

III. Our said Governor shall take the oath of allegiance and the oath for the due execution of the Office of Our Governor of the Punjab, and for the due and impartial administration of justice, in the form hereto appended, which oaths the Chief Justice for the time being, or in his absence any Judge, of the High Court, shall, and he is hereby required to, tender and administer unto him.

IV. And We do authorise and require Our Governor, by himself or by any other person to be authorised by him in that behalf, to administer to every person appointed by him to hold office as a member of the Council of Ministers the oaths of office and of secrecy hereto appended.

V. And We do further direct that every person who under these Instructions shall be required to take an oath may make an affirmation in place of an oath if he has any objection to making an oath.

VI. And whereas great prejudice may happen to Our service by the absence of Our Governor, he shall not quit India during his term of office without having first obtained leave from Us under Our Sign Manual or through one of Our Principal Secretaries of State.

B.—IN REGARD TO THE EXECUTIVE AUTHORITY OF THE PROVINCE.

VII. In making appointments to his Council of Ministers Our Governor shall use his best endeavours to select his Ministers in the following manner, that is to say, to appoint in consultation with the person who in his judgment is most likely to command a stable majority in the Legislature those persons (including so far as practicable members of important minority communities) who will best be in a position collectively to command the confidence of the Legislature. In so acting, he shall bear constantly in mind the need for fostering a sense of joint responsibility among his Ministers.

VIII. In all matters within the scope of the executive authority of the Province, save in relation to functions which he is required by or under the Act to exercise in his discretion, Our Governor shall in the exercise of the powers conferred upon him be guided by the advice of his Ministers, unless in his opinion so to be guided would be inconsistent with the fulfilment of any of the special responsibilities which are by the Act committed to him, or with the proper discharge of any of the functions which he is otherwise by or under the Act required to exercise in his individual judgment ; in any of which cases Our Governor shall, notwithstanding his Ministers' advice, act in exercise of the powers by or under the Act conferred upon him in such manner as to his individual judgment seems requisite for the due discharge of the responsibilities and functions aforesaid. But he shall be studious so to exercise his powers as not to enable his Ministers to rely upon his special responsibilities in order to relieve themselves of responsibilities which are properly their own.

IX. Our Governor shall interpret his special responsibility for the safeguarding of the legitimate interests of minorities as requiring him to secure, in general, that those racial or religious communities for the members of which special representation is accorded in the Legislature, and those classes of the people committed to his charge who, whether on account of the smallness of their number or their primitive condition or their lack of educational or material advantages or from any other cause, cannot as yet fully rely for their welfare upon joint political action in the Legislature, shall not suffer, or have reasonable cause to fear, neglect or oppression. But he shall not regard as entitled to his protection any body of persons by reason only that they share a view on a particular question which has not found favour with the majority.

Further, Our Governor shall interpret the said special responsibility as requiring him to secure a due proportion of appointments in Our Services to the several communities, and, so far as there may be in his Province at the date of the issue of these Our Instructions an accepted policy in this regard, he shall be guided thereby, unless he is fully satisfied that modification of that policy is essential in the interests of the communities affected or of the welfare of the public.

X. In the discharge of his special responsibility for the securing to members of the public services of any rights provided for them by or under the Act and the safeguarding of their legitimate interests Our Governor shall be careful to safeguard the members of Our Services not only in any rights provided for them by or under the Act or any other law for the time being in force, but also against any action which, in his judgment, would be inequitable.

XI. The special responsibility of Our Governor for securing in the sphere of executive action any of the purposes which the provisions of Chapter III of Part V of the Act are designed to secure in relation to legislation shall be construed by him as requiring him to differ from his Ministers if in his individual judgment their advice would have effects of the kind which it is the purpose of the said Chapter to prevent, even though the advice so tendered to him is not in conflict with any specific provision of the Act.

XII. Our Governor shall construe his special responsibility for the protection of rights of any Indian State as requiring him to see that no action shall be taken by his Ministers which would imperil the economic life of any State, or effect prejudicially any right of any State heretofore or hereafter recognised, whether derived from treaty, grant, usage, sufference or otherwise : and he shall refer to Our Governor-General any questions which may arise as to the existence of any such right.

XIII. In the framing of rules for the regulation of the business of the Provincial Government Our Governor shall ensure that, amongst other provisions for the effective discharge of that business, due provision is made that the Finance Minister shall be consulted upon any proposal by any other Minister which affects the finances of the Province : and further that no re-appropriation within a Grant shall be made by any Department other than the Finance Department, except in accordance with such rules as the Finance Minister may approve ; and that in any case in which the Finance Minister does not concur in any such proposal the matter shall be brought for decision before the Council of Ministers.

He shall further in those rules make due provision to secure that prompt attention is paid to any representation received by his Government from any minority.

XIV. Having regard to the powers conferred by the Act upon Our Secretary of State to appoint persons to Our service if, in his opinion, circumstances arise which render it necessary for him so to do in order to secure efficiency in irrigation, Our Governor shall make it his care to see that he is kept constantly supplied with information as to the conduct of irrigation in his Province in order that he may, if need be, place this information at the disposal of Our Governor-General.

XV. In the exercise of the powers by law conferred upon him in relation to the administration of areas declared under the Act to be Excluded or Partially Excluded Areas, or to the discharge of his special responsibility for the safeguarding of the legitimate interests of minorities, Our Governor shall, if he thinks this course would enable him the better to discharge his duties to the inhabitants of those areas or to primitive sections of the population elsewhere, appoint an officer with the duty of bringing their needs to his notice and advising him regarding measures for their welfare.

C.—MATTERS AFFECTING THE LEGISLATURE.

XVI. In determining whether he shall in Our name give his assent to, or withhold his assent from, any Bill Our Governor shall, without prejudice to the generality of his power to withhold his assent on any ground which appears to him in his discretion to render such action necessary or expedient, have particular regard to the bearing of the provisions of the Bill upon any of the special responsibilities imposed upon him by the Act.

XVII. Without prejudice to the generality of his powers as to reservation of Bills, Our Governor shall not assent in Our name to, but shall reserve for the consideration of Our Governor-General, any Bill of any of the classes herein specified, that is to say :—

(*a*) any Bill the provisions of which would repeal or be repugnant to the provisions of any Act of Parliament extending to British India ;

(*b*) any Bill which in his opinion would, if it became law, so derogate from the powers of the High Court as to endanger the position which that Court is by the Act designed to fill ;

(*c*) any Bill regarding which he feels doubt whether it does, or does not, offend against the purposes of Chapter III of Part V or section 299 of the Act ;

(*d*) any Bill which would alter the character of the Permanent Settlement.

And in view of the provisions in this clause of these Our Instructions, it is Our will and pleasure that if his previous sanction is required under the Act to the introduction of any Bill of the last-mentioned description Our Governor shall not withhold that sanction to the introduction of the Bill.

XVIII. It is Our will that the power vested by the Act in Our Governor to stay proceedings upon a Bill, clause or amendment in the Provincial Legislature in the discharge of his special responsibility for the prevention of grave menace to peace and tranquillity shall not be exercised unless, in his judgment, the public discussion of the Bill, clause amendment would itself endanger peace and tranquillity.

XIX. It is Our will and pleasure that the seats in the Legislative Council to be filled by the nomination of Our Governor shall be so apportioned as in general to redress, so far as may be, inequalities of representation which may have resulted from election, and in particular to secure representation for women and the Scheduled Castes in that Chamber.

D.—GENERAL.

XX. And generally Our Governor shall do all that in him lies to maintain standards of good administration ; to promote all measures making for moral, social and economic welfare and tending to fit all classes of the population to take their due share in the public life and government of the Province ; and to secure amongst all classes and creeds co-operation, good will and mutual respect for religious beliefs and sentiments ; and shall further have regard to this Instruction in the exercise of the powers by law conferred upon him in relation to matters whether of legislation or of executive government.

XXI. And We do hereby charge Our Governor to communicate these Our Instructions to his Ministers and to publish the same in his Province in such manner as he may think fit

No. 191.—The Punjab Legislative Assembly (Removal of Disqualifications) Bill is published, under rule 25 of the Punjab Legislative Assembly Rules, for general information :—

A Bill to provide for the removal of certain disqualifications for elections to the Punjab Legislative Assembly.

Preamble. WHEREAS it is expedient to provide in accordance with section 69 (1) (*a*) of the Government of India Act, 1935, that the holders of the offices hereinafter appearing shall not be disqualified for election to the Punjab Legislative Assembly; it is hereby enacted as follows :—

Short title. 1. This Act may be called the Punjab Legislative Assembly (Removal of Disqualifications) Act, 1937.

Removal of certain disqualifications. 2. A person shall not be disqualified for being chosen as, or for being a member of the Punjab Legislative Assembly by reason only of the fact that he holds any of the following offices namely :—

(*1*) the office of Parliamentary Secretary, if and when it is created ;

(*2*) any of the offices shown in the schedule to this Act.

Alteration of Schedule. 3. The schedule may from time to time be altered by resolution of the Punjab Legislative Assembly, but not otherwise.

SCHEDULE.

1. Lambardar, inamdar, sufedposh or zaildar, whether called by this or any other title.

2. Sub-Registrar, whether departmental or honorary.

STATEMENT OF OBJECTS AND REASONS.

Section 69 (1) (*a*) of the Government of India Act, 1935, lays down that a person shall be disqualified for being chosen as, and for being, a member of the Provincial Legislative Assembly if he holds any office of profit under the Crown in India, other than an office declared by Act of the Provincial Legislature not to disqualify its holder. For the purposes of the first elections to the Provincial Legislature section 307 of the Act saves from disqualification the holder of an office which is not a whole-time office remunerated either by salaries or fees, and the section continues to operate during the life of the first Assembly to save persons who have been duly elected from being disqualified under the provisions of section 69 (1) (*a*) from sitting and voting as members even though the office they hold may be an office of profit under the Crown.

The first object of this Bill is to secure that for the future also the electorate shall not be debarred from choosing as members of the Legislature persons who, though they hold certain offices which might be called offices of profit under the Crown, are at the same time not whole-time Government servants. Such are lambardars, inamdars, sufedposhes, zaildars and sub-registrars. The second object is to save from disqualification persons who may be appointed to be Parliamentary Secretaries. Such persons will be chosen from among members of the Legislative Assembly.

SECTION I.—SHORT TITLE AND COMMENCEMENT.

1. These rules may be called the "Treasury Rules (Punjab)" and they shall come into force on the 1st April, 1937.

SECTION II.—DEFINITIONS.

2. In these rules, unless the context otherwise requires, the following expressions have the meaning hereby assigned to them, that is to say :—

(*a*) "Province" and "Government" mean respectively the Province and the Government of the Punjab.

(*b*) "Public Account of the Province" means the consolidated fund into which moneys received on account of the revenues of the Province as defined in Section 136 of the Government of India Act, 1935, are paid or credited and from which all disbursements of, or on behalf of, the Province are met.

NOTE.—"Revenues of the Province" means and includes all moneys received by a Government servant on behalf of Government ; not only the proceeds of taxation and the yield of ordinary revenue but also capital receipts such as sales of land ; the proceeds of borrowing operations ; unfunded debt ; and such receipts of a banking or deposit nature as, by virtue of any statutory provision, or of any general or special executive order of Government have to be held in the custody of Government.

(*c*) "Treasury" means any treasury of the Province and includes a sub-treasury.

(*d*) "The Bank" means the Reserve Bank of India, or any branch or agency of the Reserve Bank of India and includes any branch of the Imperial Bank of India acting as the agent of the Reserve Bank of India in accordance with the provisions of the Reserve Bank of India Act, 1934 (Act II of 1934).

(*e*) "Collector" means the chief officer in charge of the revenue administration of a district.

(*f*) "Accountant General" means the head of the office of audit and accounts subordinate to the Auditor General of India, who keeps the accounts of the Province and exercises audit functions in relation to those accounts on behalf of the Auditor-General of India,

(*h*) "Finance Minister" means that one of the Governor's ministers to whom the business of finance is allocated by the Governor by whatsoever designation such person may be called.

(*i*) "The Act" means the Government of India Act, 1935.

SECTION III.—LOCATION OF MONEYS STANDING IN THE PUBLIC ACCOUNT OF THE PROVINCE.

3. Save as provided in sub-rule (2) of rule 7 moneys standing in the Public Account of the Province must either be held in the treasury or in the Bank. Moneys deposited in the Bank shall be considered as one general fund held in the books of the Bank on behalf of the Province.

The deposit of such moneys in the Bank shall be governed by the terms of the agreement made between the Governor of the Province and the Bank under section 21 of the Reserve Bank of India Act, 1934 (Act II of 1934).

SECTION IV.—GENERAL SYSTEM OF CONTROL OVER TREASURY.

District Treasuries.

4. (1) Unless the Government, after consultation with the Accountant General otherwise directs in any special case, there shall be a treasury in every district. If moneys standing in the Public Account of the Province are, in any district, not deposited in the Bank, the treasury of that district shall be divided into two departments; a department of accounts, under the charge of an Accountant, and a cash department under the charge of a Treasurer.

(2) The treasury shall be under the general charge of the Collector, who may entrust the immediate executive control to a Treasury Officer subordinate to him but may not divest himself of administrative control. The Collector shall be responsible for the proper observance of the procedure prescribed by or under these rules and for the punctual submission of all returns required from the treasury by the Government, the Accountant General and the Reserve Bank of India.

Subject to the provisions of this rule, the respective responsibilities of the Collector and the Treasury Officer for business of the treasury shall be such as may be defined in accordance with such rules as the Finance Minister may approve, after consultation with the Accountant General.

(3) The duty of verifying and certifying the monthly cash balance, if any, in the treasury in such manner as the Finance Minister after consultation with the Accountant General may prescribe and of submitting the monthly accounts of such balance in such form and after such verification as the Accountant General may require, shall be undertaken by the Collector or by such other officer as the Government may specify. It must be performed by the Collector in person at least once in every period of six months.

(4) When a new Collector is appointed to a district, he shall at once report his appointment to the Accountant General and shall certify to the Accountant General the amount of the cash balance, if any, which he has taken over. The certificate shall be submitted in such form and after such verification as the Finance Minister may, after consultation with the Accountant General, prescribe.

(5) No portion of the responsibility for the proper management and working of treasuries shall devolve upon the officers of the Indian Audit Department.

Sub-treasuries.

5. If the requirements of the public business make necessary the establishment of one or more sub-treasuries under a district treasury, the arrangements for the administration thereof and for the proper conduct of business therein shall be such as may be prescribed by the Finance Minister after consultation with the Accountant General. The daily accounts of receipts and payments of moneys at a sub-treasury must be included in the accounts of the District treasury.

Office of the Accountant General.

6. The office of the Accountant General may, with the consent of, and subject to such conditions as may be prescribed by the Auditor General of India, perform all or any prescribed part of the duties of a treasury in respect of claims against the Government that may fall due for disbursement and moneys that may be tendered for credit to the public account of the Province, at the headquarters of the Government at Lahore.

SECTION V.—PAYMENT OF REVENUES OF THE PROVINCE INTO THE PUBLIC ACCOUNT.

7. (1) Save as hereinafter provided in this Section all moneys received by, or tendered to, Government servants on account of the revenues of the Province, as defined in section 136 of the Act, shall without undue delay be paid in full into the treasury or into the Bank and shall be included in the Public Account of the Province. Moneys received as aforesaid shall not be appropriated to meet departmental expenditure, nor otherwise kept apart from the Public Account of the Province. No department of the Government may require that any moneys received by it on account of the revenues of the Province be kept out of the Public Account of the Province.

(2) Notwithstanding anything contained in sub-rule (1) of this rule direct appropriation of Departmental Receipts for Departmental expenditure is authorised in the following cases, that is to say :—

(a) in the case of moneys received on account of the service of summonses, diet-money of witnesses and similar purposes, in Civil, Revenue and Criminal cases ;

(b) in the case of fees received by Government servants appointed Notaries Public, under Act XXVI of 1881, and utilised to defray legal expenses, incurred by them in the discharge of their duties as such Notaries Public ;

(c) in the case of cash receipts utilised in accordance with departmental regulations by the Public Works Department to defray expenditure on current works, or utilised by that Department under the authorisation of the Accountant General to defray pay and travelling allowance charges ;

(d) in the case of cash found on the persons of prisoners at the time of their admission to jail, and used for the repayment by Jail Superintendents under departmental regulations of similar sums due to other prisoners on their release ;

(*e*) in the case of cash received by the Forest Department and utilised in meeting immediate local expenditure;

Provided that the authority hereby given to appropriate departmental receipts for departmental expenditure shall not be construed as authority to keep the departmental receipts and expenses defrayed therefrom outside the account of the payments into and the withdrawals from the Public Account of the Province.

8. Moneys received by a Government servant whether in an official or another capacity which do not relate to or form part of the revenues of the Province shall not be included in the Public Account of the Province, and a Government servant is not required to pay into the Public Account of the Province any such moneys. If any question arises whether moneys are or are not moneys relating to or forming part of the revenues of the Province, the question shall be referred to Government whose decision shall be final.

9. (1) A Government servant may not, except with the special permission of the Government, deposit in a bank moneys withdrawn from the Public Account of the Province under the provisions of Section VII of these rules.

(2) With the permission of the Governor his Private or Military Secretary may open an account in a bank for the deposit of funds under the personal control of the Governor.

10. The procedure to be adopted by Government servants in paying into the Public Account of the Province moneys received as revenues of the Province and by the treasury and the Bank in receiving such moneys and granting receipts for them shall be such as may be prescribed by the Finance Minister after consultation with the Accountant General. The procedure so prescribed shall, among other matters, contain provisions so as to secure that—

(*i*) any person paying money into the treasury shall present with it a memorandum (chalan) in such form, as may be prescribed, which will show clearly the nature of the payment and the person or Government servant on whose account it is made and will thus contain all the information necessary for the preparation of the receipt to be given in exchange and for the proper accounts classification of the credit and its allocation between Governments and departments concerned;

(*ii*) at places where the money is to be deposited in the Bank, the memorandum or chalan referred to in clause (*i*) above, shall, except where otherwise provided, be presented to the Treasury Officer who shall enface it with an order to the Bank to receive the money and to grant a receipt;

(*iii*) if a cheque on a bank is accepted in payment of Government dues under any rules, a receipt for the actual cheque only shall be given, but the formal receipt for payment shall not be delivered until the cheque has been accepted by the Bank on which it is drawn; and

(*iv*) at places where the money is to be deposited in the Bank, the advices of receipts, which according to any provision made under this rule have to be sent to public officers or departments and consolidated receipts or certificates of receipts required by any such provision to be given to any public officer or department, shall be given by the treasury and not by the Bank.

SECTION VI.—CUSTODY OF MONEYS STANDING IN THE PUBLIC ACCOUNT OF THE PROVINCE.

11. (1) The procedure for the safe custody of moneys in the treasury shall be as prescribed by the Finance Minister, after consultation with the Accountant General.

(2) The Bank is responsible for the safe custody of Government moneys deposited in the Bank.

SECTION VII.—WITHDRAWAL OF MONEYS FROM THE PUBLIC ACCOUNT.

12. In this Section " withdrawal " with its cognate expressions refers to the withdrawal of funds from the Public Account of the Province, for disbursements of or on behalf of the Province other than disbursements in the United Kingdom.

13. Unless the Finance Minister, after consultation with the Accountant General, otherwise directs in any case, moneys may not be withdrawn from the Public Account of the Province without the written permission of the Treasury Officer or of an officer of the Indian Audit Department authorised in this behalf by the Accountant General.

14. The Accountant General may permit withdrawal for any purpose.

15. (*a*) Subject as hereinafter provided in this section a Treasury Officer may permit withdrawal for all or any of the following purposes, namely :—

(*i*) To pay sums due from the Government to the drawing officer.

(*ii*) To provide the drawing officer with funds to meet claims likely to be presented against the Government in the immediate future by—

(1) other Government servants, or

(2) private parties.

(*iii*) To enable the drawing officer to supply funds to another Government servant from which to meet similar claims.

(*iv*) to pay direct from the Treasury or from the Bank sums due by Government to a private party.

(*v*) In the case of an officer or authority empowered to make investments of moneys standing in the Public Account of the Province, for the purpose of such investment.

(*b*) Unless expressly authorised by the Accountant General, a Treasury Officer shall not permit withdrawal for any purpose not specified in clause (*a*) of this rule.

16. Except as provided in rules 26 and 27 a Treasury Officer shall not permit withdrawal for any

purpose unless the claim for withdrawal is presented by such person and in such form, and has been satisfactorily submitted by the Treasury Officer to such checks, as the Finance Minister, after consultation with the Accountant General, may prescribe. The procedure so prescribed shall, among other matters, contain provisions so as to secure—

(*i*) that any person having a claim against Government shall present his voucher at the Treasury duly receipted, and stamped where necessary, and that unless otherwise specially provided no such claim shall be paid unless the claim is first submitted to, and the payment directed by the Treasury Officer ;

(*ii*) that where sub-treasuries are specially permitted by the Government to cash certain classes of bills without reference to the Treasury Officer, the payment of such bills shall not, except under special arrangements and on particular occasions, be allowed at the district treasury also ;

(*iii*) that all bills and vouchers on which payment is made by the Treasury Officer or which are enfaced by him for payment at the Bank or a sub-treasury shall show to what head of account the payment is to be debited, how the amount of the payment is to be allocated between Governments or departments, and what amount if any appertains to the revenues of Central Government or the Federation.

17. A Treasury Officer has no general authority to make payments on demands presented at the treasury, his authority being strictly limited to the making of payments authorised by or under these rules. If a demand of any kind is presented at a treasury for a payment which is not authorised by or under these rules, or is not covered by a special order received from the Accountant General, the Treasury Officer shall decline payment for want of authority. A Treasury Officer has no authority to act under an order of Government sanctioning a payment, unless the order is an express order to *him* to make the payment ; and even such special orders should, in the absence of urgency, be sent through the Accountant General.

18. A Treasury Officer shall not honour a claim which he considers to be disputable. He shall require the claimant to refer it to the Accountant General.

19. Except as provided by rules 20 and 21 a payment shall unless Government by general or special order otherwise directs be made in the district in which the claim arises.

20. The leave-salary of a gazetted Government servant, who draws his leave-salary in India, may be paid in any district of the Province. The leave-salary of a non-gazetted servant may be paid in that district only in which his pay could be drawn if he were on duty.

21. Pensions payable in India may be paid in any district of the Province.

22. No withdrawal shall be permitted in order to meet the pay, leave-salary or allowances of a gazetted Government servant, or a reward or honorarium payable

to a gazetted Government servant, or any pension until the Accountant General has intimated to the Treasury Officer the rate at which payment shall be made ; provided that the Government may, for special reasons and with the concurrence of the Accountant General, waive the provisions of this rule.

23. No withdrawal shall be permitted on a claim for the first of any series of payments in a district of pay or allowances to a Government servant other than a person newly appointed to Government service, unless the claim is supported by a last-pay certificate in such form as may be prescribed by the Auditor-General of India. A Treasury Officer may not permit any withdrawal in respect of pay or allowances of a Government servant to whom he has granted a last-pay certificate unless the certificate is first surrendered.

24. The Treasury Officer shall be responsible to the Accountant General for acceptance of the validity of a claim against which he has permitted withdrawal, and for evidence that the payee has actually received the sum withdrawn.

25. The Treasury Officer shall obtain sufficient information as to the nature of every payment he is making and shall not accept a voucher which does not formally present that information unless there are valid reasons, which he shall record in writing for omitting to require it.

26. A Treasury Officer may correct an arithmetical inaccuracy or an obvious mistake in any bill presented to him for payment, but shall intimate to the drawing officer any correction which he makes.

27. A Collector may, in circumstances of urgency by an order in writing authorise and require a Treasury Officer to make a payment, not being a payment of pension, without complying with the provisions of these rules. In any such case the Collector shall at once forward a copy of his order and a statement of the circumstances requiring it, and the Treasury Officer shall at once report the payment, to the Accountant General.

28. A Government servant who is authorised to draw moneys by means of cheques shall notify to the Bank or the Treasury upon which he draws the number of each cheque book brought into use and the number of cheques it contains.

39. When a Government servant who is authorised to draw or countersign cheques or bills payable at the treasury or the Bank makes over charge of his office to another, he shall send a specimen of the relieving Government servant's signature to the Treasury Officer or the Bank, as the case may be.

SECTION VIII.—TRANSFER OF MONEYS STANDING IN THE PUBLIC ACCOUNT OF THE PROVINCE.

30. The transfer of Government moneys from one treasury to another, and between the currency chest balance and treasury balance of a treasury and between a treasury and the Bank shall be governed by such instructions as may be issued in this behalf by the Finance Minister after consultation with the Reserve Bank of India. The transfer of moneys from or to a Small Coin Depôt to or from a treasury under the control of the

Government of the Province shall be governed by instructions issued by the Governor-General in this behalf.

SECTION IX.—RESPONSIBILITY FOR MONEYS WITHDRAWN.

31. If a Treasury Officer receives intimation from the Accountant General that moneys have been incorrectly withdrawn and that a certain sum should be recovered from a drawing officer, he shall effect the recovery without delay and without regard to any correspondence undertaken or contemplated with reference to the retrenchment order; and the drawing officer shall without delay repay the sum in such manner as the Accountant General may direct.

32. (a) A Government servant supplied with funds for expenditure shall be responsible for such funds until an account of them has been rendered to the satisfaction of the Accountant General. He shall also be responsible for seeing that payments are made to persons entitled to receive them.

(b) If any doubt arises as to the identity of the Government servant by whom an account of such funds shall be rendered, it shall be decided by the Government.

SECTION X.—INTER-GOVERNMENT TRANSACTIONS.

33. (1) Save as provided hereafter in this *section* no transactions of the Province with another Government shall be adjusted against the balance of the Province except in accordance with such directions as may be given by the Auditor General of India with the approval of the Governor-General to regulate the procedure for the accounting of transactions between different Governments.

(2) Moneys presented within the jurisdiction of another Government for credit to the Public Account of the Province or a payment made by another Government as a withdrawal affecting the balance of the Public Account of the Province shall not be credited or debited to the Public Account of the Province except under express authority of the Accountant General or any other Accounting Officer authorised in this behalf by the Auditor General of India.

(3) All adjustments against the balance of the Province by debit or credit to another Government shall be made through the Central Accounts Office of the Reserve Bank of India.

34. Where such a course is authorised in consequence of a delegation of functions made under subsection (1) of section 124 of the Act, the Treasury Officer may receive or authorise the Bank to receive moneys tendered on behalf of the Central Government or the Federation, and may make or authorise the Bank to make disbursements on behalf of the Central Government or the Federation in accordance with such procedure as may be specified in the rules made by or under the authority of the Governor-General. Such receipts and disbursements on behalf of the Central Government or the Federation shall be adjusted, as far as practicable, directly against the balance of the Central Government or the Federation held by the Bank, but where such

transactions are temporarily taken into account against the balance of the Public Account of the Province, the Accountant General will on receipt of intimation from the treasury make the requisite adjustments in respect of the aforesaid transactions through the Central Accounts Office of the Reserve Bank of India, against the balances in the Public Account of the Central Government or the Federation held by the Bank.

35. The Treasury Officer may, subject to any general or specific direction of the Government in this behalf, receive or authories the Bank to receive moneys tendered on behalf of another Province and may, if so required by the Accountant General, make or authorise payment of any claim against another Province. The necessary credits or debits in respect of such receipts and payments against the balances of the Province concerned shall be made by the Accountant General through the Central Accounts Office of the Reserve Bank of India, but until such adjustments are made, the credits and debits shall be entered in the Public Account of the Province.

Moneys paid or received in the offic of the Accountant General on behalf of another Province, and book entries made in the office of the Accountant General affecting the accounts of another Province shall likewise be adjusted by the Accountant General through the Central Accounts Office of the Reserve Bank of India against the balances of the Province concerned.

36. The provisions of the preceding rule may be extended with or without modification to payments made or received in the Province on behalf of the Federal Railway Authority or of His Majesty's Representative for the exercise of the functions of the Crown in its relations with Indian States.

SECTION XI.—RECEIPTS AND DISBURSEMENTS OF THE PROVINCE IN THE UNITED KINGDOM.

37. Until other provision is made by the Government in this behalf, moneys received in the United Kingdom on account of the revenues of the Province may be paid into, and funds required for disbursements of or on behalf of the Province in that country may be withdrawn from, the balances in the Public Account of the Central Government or the Federation in that country, in accordance with such procedure as may be prescribed by or under the authority of the Governor General for the transactions of the Central Government or the Federation in the United Kingdom. Powers of Government entry.

4. The tenant shall at all times permit any officer or officers of Government to enter into and upon the whole or any part of the lands and do all acts and things that may be necessary or expedient for the purpose of searching for, working, getting or carrying away any such mines and minerals, coals, gold-washings, earth-oil and quarries and for the full enjoyment of the ground and of each and all of the rights hereinbefore reserved to the Government to and over all mines and minerals, coals, gold-washings, earth-oil, quarries and easements in or under the said lands and all parts thereof.

The payment shall ordinarily be made in advance, but no payment, except for special reasons, shall be leviable until the expiry of three years from the date on which two-thirds of the allotable area of the estate has been put into possession of the tenants.

Provided also that the proprietary right may be withheld from the tenant if a breach of the canal, distributary or minor has occurred in the estate in which the said lands are situated within five years of the date of the application for the grant of the proprietary right, if there is reason to believe that such breach was wilfully caused by the tenant or any of the sub-tenants of the said lands.

(3) "Unexhausted Papers" mean ballot papers on which a further preference is recorded for a continuing candidate.

(4) "Exhausted Papers" mean ballot papers on which no further preference is recorded for a continuing candidate provided that a paper shall also be deemed to be exhausted in any case in which—

(*a*) the names of two or more candidates, whether continuing or not, are marked with the same figure and are next in order of preference ; or

(*b*) the name of the candidate next in order of preference ; whether continuing or not, is marked—

(*i*) by a figure not following consecutively after some other figure on the ballot paper, or

(*ii*) by two or more figures.

(5) "Original Votes" in regard to any candidate mean the votes derived from ballot papers on which a first preference is recorded for such candidate.

(6) "Transferred Votes" in regard to any candidate mean votes, the value or part of the value of which is credited to such candidate and which are derived from ballot papers on which a second or subsequent preference is recorded for such candidate.

(7) "Surplus" means the number by which the value of the votes of any candidate, original and transferred, exceeds the quota.

II. (1) The voting shall be by ballot. Every ballot paper shall contain the names of all the candidates, duly nominated for election printed in alphabetical order, in the form prescribed in the annexure hereto.

(2) When the member has received a ballot paper, he shall signify in the manner provided by the next succeeding paragraph for whom he desires to vote. The member shall then fold the ballot paper and drop it in the ballot box provided for that purpose.

(3) If a member inadvertently spoils a ballot paper, he may return it to the Elections Commissioner who shall, if satisfied of such inadvertence, give him another paper and retain the spoiled paper, and this spoiled paper shall immediately be cancelled.

III. Every member shall have one vote only. A member in giving his vote—

(*a*) must place on his ballot paper the figure 1 in the square opposite the name of the candidate for whom he votes ;

(*b*) may, in addition, place on his ballot paper the figure 2 or the figures 2 and 3, or 2, 3 and 4, and so on, in the squares opposite the names of other candidates in the order of his preference.

IV. A ballot paper shall be invalid—

(*e*) which is unmarked or void for uncertainty.

V.—In carrying out these regulations the Elections Commissioner shall—

(*a*) disregard all fractions;

(*b*) ignore all preferences recorded for candidates already elected or excluded from the poll.

VI.—The ballot papers shall be examined and the Elections Commissioner, after rejecting any invalid ballot papers, shall divide the remaining papers into parcels according to the first preferences recorded for each candidate. He shall then count the number of papers in each parcel.

VII. For the purpose of facilitating the processes prescribed by these regulations each valid ballot paper shall be deemed to be of the value of one hundred.

VIII. The Elections Commissioner shall then add together the values of the papers in all the parcels and divide the total by a number exceeding by one the number of vacancies to be filled, and the result increased by one shall be the number sufficient to secure the return of a candidate, herein called the "quota".

IX. If at any time under these regulations a number of candidates equal to the number of persons to be elected has obtained the quota, such candidate shall be treated as elected and no further steps shall be taken.

X. (1) Any candidate, the value of whose parcel on the first preferences being counted is equal to or greater than the quota, shall be treated as elected.

(2) If the value of the papers in any such parcel is equal to the quota, the papers shall be set aside as finally dealt with.

(3) If the value of the papers in any such parcels is greater than the quota, the surplus shall be transferred to the continuing candidates indicated on the ballot papers as next in the order of the voter's preference, in the manner prescribed in the following regulation.

XI. (1) If and whenever, as the result of any operation prescribed by these regulations, a candidate has a surplus, that surplus shall be transferred in accordance with the provisions of this regulation.

( ) If more than one candidate has a surplus, the largest surplus shall be dealt with first and the others in order of magnitude; provided that every surplus arising on the first count of votes shall be dealt with before those arising on the second count, and so on.

(3) Where two or more surpluses are equal, the Elections Commissioner shall decide according to the terms of Regulation XVI, which shall first be dealt with.

(4) (*a*) If the surplus of any candidate to be transferred arises from original votes only, the Elections Commissioner shall examine all the papers in the parcel belonging to the candidate whose surplus is to be transferred and divide the unexhausted papers into sub-parcels according to the next preferences recorded thereon. He shall also make a separate sub-parcel of the exhausted papers.

(*b*) He shall ascertain the value of the papers in each sub-parcel and of all the unexhausted papers.

(*c*) If the value of the unexhausted papers is equal to or less than surplus, he shall transfer all the unexhausted papers at the value at which they were received by the candidate whose surplus is being transferred.

(*d*) If the value of the unexhausted papers is greater than the surplus, he shall transfer the sub-parcels of unexhausted papers, and the value at which each paper shall be transferred shall be ascertained by dividing the surplus by the total number of unexhausted papers.

(5) If the surplus of any candidate to be transferred arises from transferred as well as original votes, the Elections Commissioner shall re-examine all the papers in the sub-parcel last transferred to the candidate and divide the unexhausted papers into sub-parcels according to the next preferences recorded thereon. He shall thereupon deal with the sub-parcels in the same manner as is provided in the case of the sub-parcels referred to in the last preceding sub-section.

(6) The papers transferred to each candidate shall be added in the form of a sub-parcel to the papers already belonging to such candidate.

(7) All papers in the parcel or sub-parcels of an elected candidate not transferred under this regulation shall be set aside as finally dealt with.

XII. (1) If after all surpluses have been transferred, as hereinbefore directed, less than the number of candidates required had been elected, the Elections Commissioner shall exclude from the poll the candidate lowest on the poll and shall distribute his unexhausted papers among the continuing candidates according to the next preferences recorded thereon. Any exhausted papers shall be set aside as finally dealt with.

(2) The papers containing original votes of an excluded candidate shall first be transferred the transfer value of each paper being one hundred.

(3) The papers containing transferred votes of an excluded candidate shall then be transferred in the order of the transfers in which and at the value of which he obtained them.

(4) Each of such transfers shall be deemed to be a separate transfer.

(5) The process directed by this regulation shall be repeated on the successive exclusions one after another of the candidates lowest on the poll until the last vacancy is filled either by the election of a candidate with the quota or as hereinafter provided.

XIII. If as the result of a transfer of papers under these regulations the value of the votes obtained by a candidate is equal to or greater than the quota the transfer then proceeding shall be completed but no further papers shall be transferred to him.

XIV. (1) If after the completion of any transfer under these regulations the value of the votes of any candidate shall be equal to or greater than the quota, he shall be treated as elected.
